Who We Are

AgriBank is part of the customer-owned, nationwide Farm Credit System. Under Farm Credit's cooperative structure, AgriBank is primarily owned by local Farm Credit Associations that are also our customers. We expertly and reliably obtain funds and prudently provide funding and financial solutions to Associations. The Associations, in turn, support the financial needs of farmers, ranchers, and other rural customers who own them. The Federal Farm Credit Banks Funding Corporation raises funds AgriBank uses for loans and leases through the sale of Farm Credit Systemwide debt securities (bonds and notes) in U.S. money markets.

About Farm Credit

Farm Credit is a nationwide network of customer-owned financial institutions that provides loans and related financial services to U.S. farmers and ranchers, farmer-owned cooperatives, rural homebuyers, agribusinesses and rural infrastructure providers.

As customer-owned cooperatives, Farm Credit institutions are governed by the customers they serve and have a specific mission to support rural communities and agriculture — in good times and bad. Farm Credit loans help U.S. agricultural producers feed the world, rural businesses grow and the rural economy thrive. Farm Credit infrastructure lending helps bring clean water to rural families, modern telecommunications to help rural businesses compete and reliable energy to rural communities.

Farm Credit's mission remains just as vital today as it was when we made our first loan more than 100 years ago.
